

Merseburg University of Applied Sciences (Germany): Travel and Accommodation Grants for Study Visits Abroad

As part of the 'International HoMe Project', run by Merseburg University of Applied Sciences, a total of two travel and accommodation grants will be awarded to students from universities in South East Europe for the winter semester 2022/23. These grants may be used to complete project, Bachelor's and Master's theses in the Faculty of Engineering and Natural Sciences (applies to students) or for the exchange of research ideas and joint scientific work and publishing (applies to doctoral students) at Merseburg University of Applied Sciences.

Application Deadline for the Winter Semester: 04th September, 2022.

Travel and accommodation costs for two (doctoral) students (max. 2 months) in the winter semester 22/23 may be subsidised.

The winter semester begins on October 1st, 2022.

For two (doctoral) students:

Country of Origin	From one of the Partner Universities	Travel Allowance, (one-off payment)	Monthly Accommodation Allowance
Serbia (up to 2 months)	University of Belgrade, University of Kragujevac or Business Academy University Novi Sad	425 euros	750 euros

The following documents must be submitted together with an application (in German or English):

- ✓ A letter of motivation with information on the country of origin and university;
- ✓ A short biography with details of the participant's degree programme and semester or degree qualification;
- ✓ Max. 1-page outline of the project proposal or an explanation of the planned Bachelor's or Master's thesis;
- ✓ Proof of English language skills at level B2 or German language skills at level B1;
- ✓ Certificate of enrolment or proof of doctoral work/activities.

The application should be submitted per e-mail to Ivana Predarska at the Merseburg University of Applied Sciences: ivana.predarska@hs-merseburg.de.

The applicants, entitled to a subsidised stay and support, will be selected by two staff members from the International Office and the International Officer at the Department of Engineering and the Natural Sciences, Prof. Dr. Dr. h.c. Goran Kaluđerović.
